(2x) Optical SPDIF (digital optical), (1x) Coax
SPDIF (digital coaxial), (1x) Analog RCA Right/Left,
(1x) AC Power

Outputs

(1x) Subwoofer Out via analog RCA

Controls

Top mounted controls and included remote control.

Remote Battery

CR2025 3V

Wireless Output

Built-in SWT-2 Subwoofer Wireless Transmitter
compatible with select MartinLogan subwoofers.

Cabinet

Ported

Weight

20.5 lbs. (9.3 kg)

Dimensions

5" x 39.9" x 5.85"
(12.7cm x 101.3cm x 14.8cm)

Specifications are subject to change without notice.

Motion® Vision delivers stunning 5-channel surround sound from a sleek and sculptural all-in-one system that's stylish yet unobtrusive, simple to install, and easy to operate.

The Ultimate Single-Speaker Surround Sound System

We engineered the Motion Vision with a commanding bass performance paired with precisely etched mid- and high-frequencies, creating a vivid, three-dimensional soundstage. Front left/right and center channels use three advanced-resolution Folded Motion™ tweeters, four high-performance woofers and seven dedicated amplifiers to deliver 100 watts of total system power that also simulates the rear left/right effects channels to create fully immersive, five-channel surround sound throughout the listening environment.

Dual rear-firing bass ports reinforce the bass extension for astonishingly deep bass, and for bass aficionados who desire the deepest bass experience, the built-in SWT-2 transmitter allows the addition of a compatible wireless MartinLogan subwoofer.

Hassle-Free Setup & Simple Controls

Motion Vision installs quickly and easily on a wall with the included mounting bracket, or it can be placed on a shelf for an elegantly simple installation. A top-mounted control pad allows full access to the menu system and volume should you misplace the included remote.
