

DYNAMO™ 300

STEREO/HOME THEATER SUBWOOFER

SUB
WOOFER

AFFORDABLE LOW-FREQUENCY ACCURACY

Every element of Dynamo 300, from driver to amplifier to crossover to cabinet, is meticulously designed and manufactured to our highest standard. The result is staggering low-frequency performance for a subwoofer of its size and price. Perfect for either home theater or stereo applications, the Dynamo 300 is built with high-density materials to minimize cabinet resonance and provide a solid foundation for the high-output 8-inch woofer and high-current 75-watt, 150-watt peak amplifier.

Whether you are looking for high performance bass to enhance your music experience or take your home theater system to the next level, a new Dynamo family subwoofer should be at the top of your list.

<i>Frequency Response</i>	32–150 Hz ± 3dB
<i>Low Pass Filter Frequencies</i>	45–150 Hz
