Inspired by MartinLogan’s ultra-high-end electrostatic loudspeakers, the Motion® Series was created to provide stunning sound for your ultimate-performance home theater or stereo. MartinLogan’s dedicated in-house engineers carefully crafted the Motion Series to create an extremely affordable and compact product line that seamlessly blends our exquisite Folded Motion™ transducers with powerful, bass technology. The result is a smooth, refined sound with stunning dynamic range and jaw-dropping clarity. Included here are just a few of the outstanding awards and accolades the Motion Series has received.

“Just as MartinLogan has done with their hybrid ESL speakers, the seamless blend between the Motion tweeter and the woofer feels like you are listening to a full range speaker. There is a level of transparency here that just doesn’t happen with other budget small speakers and that’s impressive.” -- Jeff Dorgay
“A lot of technical knowledge and clever engineering went into the design of the MartinLogan Motion 4i bookshelf speakers. They’ve succeeded at a low price.” – Mel Martin

“If you’re not familiar with the original Motion Series speakers, their performance can best be summed up in two words: “detailed” and “dynamic.” Much like the originals, the amount of sound coming out of these little cabinets is a bit startling.” – Dennis Burger

“I was already a fan of MartinLogan products, loving their speakers such as the $80,000 Neolith, but wasn’t sure how much the quality trickled down into the lower-priced products. Consider me impressed. I have not seen many products in these price ranges that can compete, and certainly none that look as good.” – Michael Laurance

“A lot of technical knowledge and clever engineering went into the design of the MartinLogan Motion 4i bookshelf speakers. They’ve succeeded at a low price.” – Scott Schumer

“If you’re looking for something different, and an involving listening experience, I highly recommend that you give the MartinLogan Motion 4i an audition.” – Vince Hanada
