

DYNAMO

Powerful. Compact. Precise. Featuring powerful amplifiers and audiophile grade woofers, extensive input options, wireless connectivity, control via a Bluetooth app, Anthem Room Correction (ARC®), and user-configurable front- or down-firing designs, Dynamo subwoofers represent the most advanced, high-performance, affordable subwoofer systems ever brought to market. Dramatic bass detail and attack, superb extension, and room-shaking output ensure a compelling music and home theater experience. Included here are just a few of the outstanding awards and accolades the Dynamo Series has received.

"This generation of Dynamo subwoofers is clearly a major leap over the previous generation in every respect; I know it will be years until the next generation, but I am already eagerly looking forward to where MartinLogan goes from here based on the terrific work that they have done on these subwoofers."

"Paired up with some nice speakers like the MartinLogan Motion 4i bookshelf/satellites I used in this system this sub shows how far technology—especially amplification and DSP—has come in terms of making such a small yet capable performer possible. Within the specific parameters where someone would find a compact subwoofer like this appealing, thanks to its features and overall performance, the MartinLogan Dynamo 800X is a Top Choice for 2018." - **Mark Henninger**

"The MartinLogan Dynamo 800X is ideal to pair with some bookshelf speakers and complete a music system. With integrated Anthem Room Correction, you get a flat bass response in your room without much work, and the transition from the sub to the speakers is virtually invisible. If you need deeper bass, MartinLogan offers the dynamo in larger sizes as well." - **Chris Heinenon**

"Listening to the Casiopea Perfect Live II LaserDisc, it's clear to me that the sub is extremely tight. When a drum is whacked, this sound is accurately reproduced with the same tightness. Bass guitars are accurately reproduced. You can hear the distinction when the bassist goes between open and closed notes as well as how tight he is gripping the strings. The bass drum kicks in Conjunction and Tetsuo Sakurai's bass guitar slaps are so impressive. Now that is accurate!" - **David Susilo**
